

Attestation

of the content about plastic recyclates in blow-extrusion films

for the processor
FLÖTER Verpackungs-Service GmbH

Confirmation

The company mentioned above is the specialist for particularly high-performance air cushion systems and consumable solutions.

This confirms that the product ClimaFilm-100 from FLÖTER Verpackungs-Service GmbH consists of 82% PCR (post consumer recycling) and 18% PIR-material (post industrial recycling). The ClimaFilm-100 product therefore consists of 100% recycled material.

This certificate was issued on the following basis:

- Reference and examination of the recipes for manufacturing of PE blow films
- Reference and examination of the technical specifications for the regranulates
- Examination of the utilized manufacturing plant.

Töpchin, April 15, 2024
